What is the Natural Aquarium of Flots Bleus?

« It is a protected educational area located along Promenade des Flots Bleus and l'Esplanade Les Goélands » (in front of restaurant La Cabane). With a surface of the 3 hectare, the natural aquarium was opened in 2008 at the initiative of the municipality of Saint-Laurent-du-Var. Main natural aquarium objectives:

- Protection and development of marine wildlife,
- Awareness of the youth in the respect of the marine environment,
- The longevity of this area.

It's an **UNIQUE** place of the area where you can pat multitude species of fishes in few centimeters of water, you will be also surrounded by black-headed gulls, seagulls and by majestic swans. The bird reserve of the river Var, is a part of the NATURA 2000 zone and it explains the variety of fauna in this area.

Every morning the volunteers of the Aquarium receive the different visitors: pupils, children's outdoor activity clubs, tourists, etc. They will help you to watch, to discover and to protect better this rich local area.

This zone under video monitoring is strictly forbidden to fish.
